

School Restart - Additional Information

20th August 2020

Familiarization

It is our usual practice to hold an 'Open Morning' at this time of the year for children who would benefit from meeting staff members or seeing around their new classroom. This year the teachers will make a short video for their respective classes, showing key areas and covering important pieces of information. We aim to upload these videos onto our school website early next week. We hope your child will benefit from hearing from his/her teacher and having a virtual tour of their learning area. If, after viewing the video, you still feel it would be of extra benefit for your child to visit the school before their restart date, please contact the school office and an appointment will be made for some time on the morning of Friday 28th August.

Nursery and P1 Induction

A revised induction programme for our Nursery and P1 children has been prepared and will be posted to their parents tomorrow. We hope that any changes that have been made will be viewed as favourable.
