

Parent Information

Monday 20th April

Home Learning Packs

Your child's Home Learning Pack for the next five weeks is now available online through our school website.

We have opted for this method of distributing work based on the government's strong, "Stay At Home" message.

Should there be difficulty accessing these online resources, a hard copy can be provided. We strongly recommend that this is not requested unless it is necessary.

If you do require a hard copy for your child, please email your request to ballymacrickett@outlook.com by 6:00pm on Monday 20th April 2020, stating your child's name and year group. Details regarding distribution will be available later in the week.

N.B. Children of P1 and P2 will not require paper copies as the online guidance for them refers to workbooks and activity packs that have already been sent home.

Additional Support

If your child is having difficulty understanding a concept, topic or question and you would like some further teaching support, please forward your issue via email to: ballymacrickett@outlook.com

We will upload short video clips once a week which will hopefully address any concerns raised.

Grammar School Entrance Tests for Transfer 2021

The Post Primary Transfer Consortium (PPTC), which is the consortium in charge of GL Entrance Tests to Grammar schools, has yet to issue any information regarding a change of procedure for Transfer 2021. We recommend that we work together to prepare our P6 children on the assumption that the tests will be administered in November as usual. Any new information will be provided on the PPTC website as and when it becomes available.

We appreciate your continued understanding and support. Stay safe and look after each other.
